

Compact Silver Scales Convenient and Flexible

Convenient Mobile Operation

Flexible mobility is supported by an easily accessible battery compartment with six D-size dry or rechargeable batteries. The long battery life of up to 100 hours creates a versatile weighing solution with self-contained operation.

Intuitive, Large Display

The high-quality LCD display with 20 mm character height and white backlight is an excellent choice for operators to read in all working environments. Three display styles are available so that you can choose the best fit for your application.

Legal-for-Trade Compliance

Ensure legal-for-trade compliance with JSB scales, which are approved by the Government of India, Ministry of Consumer Affairs according to the Legal Metrology Act.

Simple Connectivity

Two standard RS232 ports enable seamless and reliable connectivity to an external secondary display or printer for enhanced traceability and hard-copy documentation of your valuable weighing results.

JSB15005/JSB30005 Silver Scales Reliable Weighing, Anywhere

JSB15005 and JSB30005 silver scales combine convenience with high accuracy for your daily weighing needs. The compact design requires minimal space in your shop or manufacturing facility. JSB scales offer capacities from 15 kg to 30 kg with readability of 0.5 g.

This high-quality weighing solution offers practical features and an affordable price that make JSB scales an essential in every outlet.
